

Kanban Project Documentation

Digital Art Commission & Watermarking Portal — Kanban_BPS#25

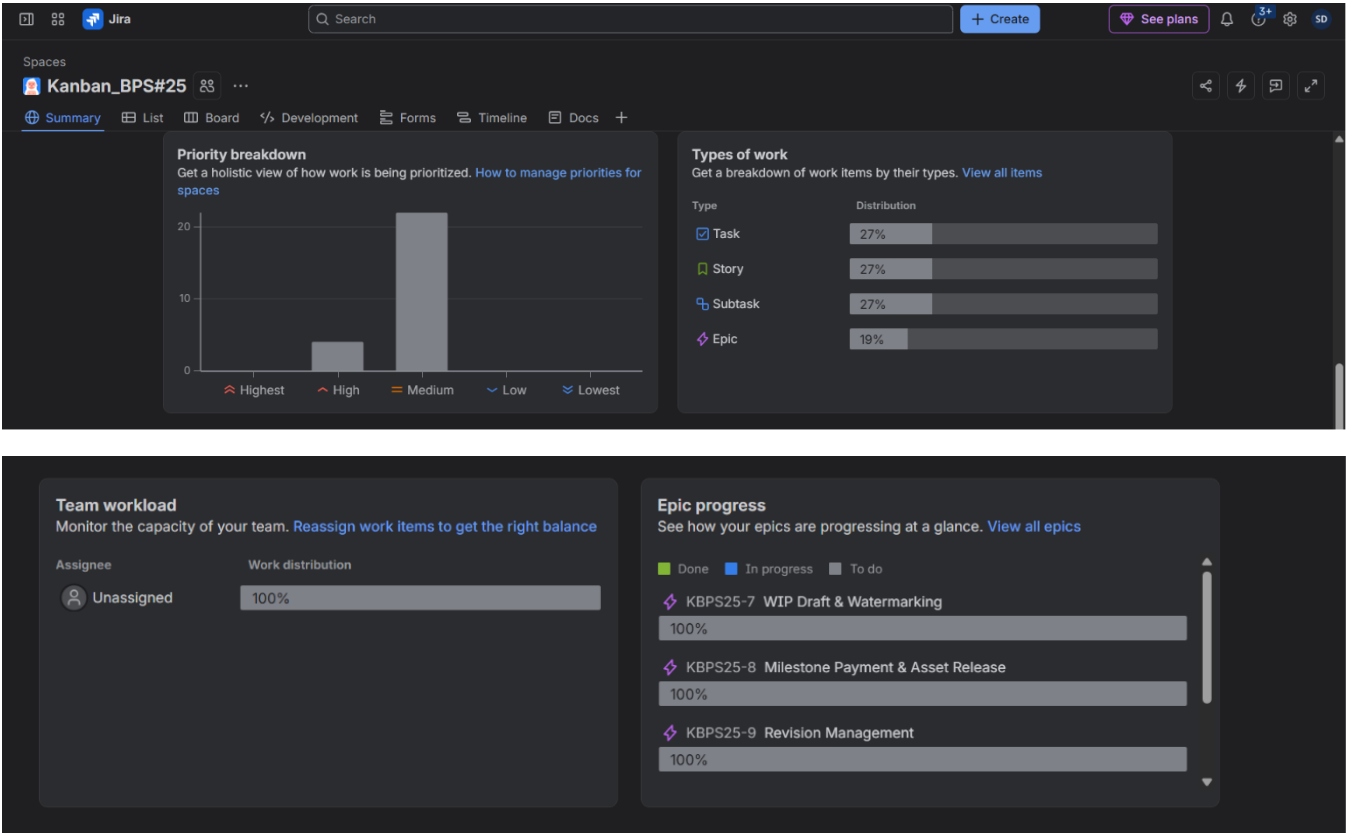

Student	Shrikar Desai
SRN	PES1UG24CS916
Jira Space	Kanban_BPS#25

This document walks through the Kanban project structure in Jira, from the project overview down to an individual subtask, illustrating how Epics, Stories, Tasks, and Subtasks are organized within the workspace.

1. Kanban Project Overview

Screenshot: Summary page

The Kanban project **Kanban_BPS#25** was created to manage the Digital Art Commission & Watermarking Portal requirements. The Summary view provides an overview of work types, priorities, team workload, and Epic progress.

2. Backlog / List View

Screenshot: List

The List view provides a structured representation of the project backlog, including Epics, Stories, Tasks, and Subtasks along with their priorities, status, assignees, and relationships.

4. User Story

Screenshot: Submit Creative Brief

The **Submit Creative Brief** Story represents FR-002 and follows the Agile user-story format, defining the Client Buyer's goal and its expected benefit.

5. Task

Screenshot: Implement Creative Brief Form

The task breaks the Submit Creative Brief functionality into an implementation activity for developing the structured creative brief form.

The screenshot shows a Jira work item interface. At the top, it says 'Jira work item' with a checkbox. Below that, there are two links: 'KBPS25-6' and 'KBPS25-19'. To the right of these links are icons for lock, view (showing '1'), share, and a menu. The main title of the work item is 'Implement Creative Brief Form'. Below the title, there are buttons for 'To Do', a lightning bolt icon, 'Improve Task', and a plus sign. The 'Description' section is expanded, showing the text: 'Implement the structured creative brief form for Client Buyers, including style, resolution, deadline, and reference image fields.' The 'Subtasks' section is also expanded, showing a progress bar at '0% Done' and a table of subtasks. The table has columns for 'Work', 'Pri...', 'Ass...', and 'Status'. One subtask is listed: 'KBPS25-20 Add brief fields', with a priority of 'M.', assigned to 'Ur', and a status of 'To Do'. At the bottom, there is a section for 'Linked work items' with a button to 'Add linked work item'.

Implement Creative Brief Form

6. Subtask

Screenshot: Add brief fields

The subtask further decomposes the implementation work by specifying the addition of style, resolution, deadline, and reference-image fields.

Note: The required BPS number for this submission is 58. I was initially unaware that the BPS number referred to the assigned Problem Statement number, so the PDF filename/project naming may reflect a different number in some places. The work and Jira implementation are based on Problem Statement #58 – Digital Art Commission & Watermarking Portal. I apologize for the oversight and have corrected the PDF filename accordingly.
